Rahul Kumar, Full-Stack Developer

Neori vikas,Ranchi, Jharkhand, India – mrrhl02@gmail.com
github.com/rahulkumar-techo – linkedin.com/in/rahul-kumar-6a225127a

PROFILE

Full-stack developer specialising in scalable web applications using Next.js, Node.js, TypeScript, and MongoDB. Experienced in designing SaaS platforms, AI-powered learning systems, and modular backend architectures. Strong focus on system design, developer productivity tools, and mobile-first web applications.

EDUCATION

(Update with dates)

Bachelor's Degree in Computer Science

India

(RTC Institute of Technology , anandi ormajhi, ranchi)

- **Software Engineering** and System Design
- **Data Structures** and Web Development

PROJECTS

2024 – Present

Portfolio SaaS Platform

`Next.js · Prisma · MongoDB · NextAuth · TailwindCSS`

A multi-user SaaS platform that generates developer portfolio websites dynamically, with full authentication and modular schema design.

- **NextAuth** authentication and user management system.
- Scalable database schema using **Prisma ORM** with MongoDB.
- Dynamic public portfolio pages via Next.js App Router and dynamic routing.

2024

NoteMentor – AI Learning Platform

`Next.js · Node.js · MongoDB · OCR AI`

An AI-powered platform converting handwritten notes into structured study materials, with multili support for Indian students.

- **Automated summary generation**, quizzes, and exam question generation.
- Multilingual architecture designed for Indian student demographics.

2023 – 2024

Career AI Platform

`Node.js · TypeScript · MongoDB`

A backend-first career platform with modular TypeScript architecture covering resume analysis, jol and career recommendations.

- **Modular backend** with config, infrastructure, modules, and shared utilities.
- Services for resume analysis, job matching, and career recommendations.

SKILLS

In decreasing order

Next.js / React.js	Expert	REST API Architecture	Very good
Node.js / Express.js	Expert	AI / OCR Integration	Good
TypeScript / JavaScript	Very good	Tailwind CSS / Framer Motion	Good
MongoDB / Prisma ORM	Very good	Redis / Microservices	Good

GITHUB

github.com/rahulkumar-techo

- Full-stack apps using Next.js & Node.js
- Developer SaaS tools & portfolio generators
- AI-powered education platform (NoteMentor)
- Modular TypeScript backend architecture
